NG,TIMOTHY HIN CHUEN
Research and development Developer

About Me

I am a R&D developer in Computer And Technologies Holdings Limited and graduate from computing in Hong Kong Poly University. The graduation assignment is studying and modifying the open source search engine to performe Passage-based document retrieval. I am willing to study the technology related to web development. In addition, artificial intelligence is also an area that I am interested in but not dabbled in.At present, it is also preliminary dabbling in the basic principles of hardware.
